

Ahmed Hossam

Full-Stack Software Engineer | React & Node.js

hossam.working1@gmail.com | 01286333826 | Giza, Agouza | linkedin

Education

Bachelor of Science in Computer Science

Modern Academy for Computer Science

2023 – present | Maadi, Egypt

Profile

Full-Stack Software Engineer with 3+ years of experience designing and delivering business systems from requirements to production with React/Next.js, Node.js, and PostgreSQL.

Skills

Languages:

TypeScript, JavaScript, C++, Python

Frameworks:

React.js, Next.js, Node.js, Prisma ORM

Databases & APIs:

PostgreSQL, MySQL, REST APIs

Infrastructure & DevOps:

Linux VPS, Docker, Dokploy, Coolify, Shared Hosting, CI/CD, Git

AI-Assisted Development:

Claude Code, Cursor

Professional Experience

full Stack Developer

08/2025 – 02/2026

Y investment for Real Estate

Owned **requirements gathering**, stack selection, system design, and full-stack delivery of a custom Real Estate CRM. Built client, property, and deal-tracking workflows with **React**, **Node.js**, **Prisma ORM**, and **REST APIs**.

backend Developer

07/2024 – 03/2025

PromptWorks

Led developers , coordinating implementation and working with cross-functional teams to deliver client-facing digital products.

Frontend Developer

12/2022 – 05/2023

Taskplus

worked on relaunch of the Task Plus web application. and build the landing page.

Projects

Roya – Film & TV Production Finance ERP

System Designer | Full-Stack Developer

React 18, Express, TypeScript, PostgreSQL, Kysely, Docker

- Gathered requirements, selected the stack, and designed a bilingual financial architecture with an **append-only ledger**, **RBAC**, and auditable workflows.
- Built production infrastructure using **Docker Compose**, **GitHub Actions CI**, backups, and **Hostinger VPS**; used **Claude Code** with repo-level conventions.

Virallap – Operations & Payroll Management System

System Designer | Full-Stack Developer

Next.js 15, TypeScript, Prisma, PostgreSQL, Dokploy

- Defined requirements and architecture for an internal system serving about **100 people**, covering projects, tasks, deadlines, deductions, bonuses, and payout cycles.
- Built **RBAC**, audit-safe financial logic, automated schedulers, testing workflows, and production deployment through **Docker** and **Dokploy**.

Ramex Store – Fabric Retail ERP

System Designer | Full-Stack Developer

React 18, Express, TypeScript, PostgreSQL, Knex.js

- Gathered business requirements and designed the architecture for **POS**, per-roll inventory, factory shipments, multi-payment sales, and role-based operations.
- Implemented a React/Express monorepo with **PostgreSQL**, **JWT/RBAC**, audit logging, PDF/Excel exports, barcode generation, and VPS-ready deployment.

Proovd – P2P Idea Validation Platform

System Designer | Frontend Developer

Next.js 15, TypeScript

- Gathered product requirements, selected the stack, and designed a **multi-role** architecture for founders and influencers.
- Implemented **Next.js App Router**, **API integration**, and dashboard workflows for the platform's core user journeys.

Vertex ERP - Freelance Project

11/2025 – 02/2026

Full-Stack Developer

React.js, Node.js, Prisma ORM

- Translated business requirements into the architecture for **sales**, **inventory**, **POS**, and accounting workflows.
- Designed the data flow with **Node.js**, **Prisma ORM**, and **REST APIs**; built POS, accounting ledgers, inventory workflows, and reusable dashboard components.

A.I.M – AI Awareness Blog Platform

Frontend Developer | API Routes Designer

React.js 18, TypeScript

- Gathered requirements and defined the content structure, user flows, and frontend architecture using reusable **React** and **TypeScript** components.
- Built dynamic blog rendering, content categories, navigation, and **API routes** with a responsive, performance-focused interface.

Courses & Training

Anthropic Prompt Engineering Interactive Course

AI Automation with n8n, Ray Group
